

Streetlight Power Tap Adapter

The Series 280 Power Tap Adapter works with any luminaire that utilizes a photocontrol and locking type receptacle. The Series 280 installs between the photocontrol or shorting cap and the receptacle providing constant 120Volt AC power.

Feature/Benefits:

- Constant 120V AC power
- Eliminates special wiring
- No electrician required
- Simple twistlock installation
- Does not interfere with normal photocontrol operation
